Mobile: +91 7064245484

[Portfolio](#)

SKILLS

Language: Python, SQL

ML / DL: PyTorch, TensorFlow, Keras, Scikit-learn, OpenCV, EfficientNet, Transformers

MLOps / Cloud: Git, GitHub, AWS, Streamlit, FastAPI, MySQL, PostgreSQL

WORK EXPERIENCE

Data Science Mentor · ElevanceSkills

Jan 2026 – Present

- Designed, delivered and evaluated 20+ structured ML tasks and assessments for intern cohorts covering deep learning architectures, image classification and NLP applications.

Research Intern — Tabular Foundation Models · HawkFranklin Research

Jun 2025 – Dec 2025

- Benchmarked TabPFN against gradient boosting baselines, demonstrating superior accuracy on small-scale datasets (<1000 samples) without hyperparameter tuning.
- Implemented novel algorithmic extensions to TabPFN; built end-to-end reproducible experimentation pipelines.

DS Intern & Data Science Mentor · NullClass

May 2024 – Jun 2025

- Developed **HeartGuard** — heart disease classification system benchmarking 4 ML models with hyperparameter tuning; KNN achieved 98.9% accuracy, outperforming SVM (90.2%) and Random Forest (97.3%) on clinical tabular data.
- Mentored intern cohorts on ML curriculum spanning CNNs, RNNs and classification tasks; reviewed and evaluated project submissions for technical accuracy.

PROJECTS

TabPFN Benchmark Research — Small Tabular Datasets [🔗](#)

- Benchmarked TabPFN against 10+ models across classification and regression tasks on small datasets (<1000 samples), achieving ROC AUC of 0.997 and F1 of 0.984 — outperforming all classical baselines at under 0.3s inference time.

Intracranial Haemorrhage Detection — Dual-Branch EfficientNet [🔗](#)

- Built a dual-branch EfficientNet-B0 processing paired brain/bone-window CT slices; deployed as a Flask web app with slice-level probability scoring and patient-level haemorrhage classification via REST API.

Multi-Region Facial Expression Dataset - Kaggle [🔗](#)

- Curated and published a facial expression dataset spanning 5 global regions with balanced train/test splits — 619 views and 58 downloads; supports computer vision and emotion detection research.

EDUCATION

Bachelor of Science (HONORS) – Physics

Fakir Mohan University

August 2020 – September 2023

CERTIFICATION

Applied Machine Learning in Python [🔗](#)

University of Michigan

August 2023

Databases and SQL for Data Science with Python [🔗](#)

IBM

December 2024
